CONTEST ATTRACTING INCREASING INTEREST

MISS ISABEL DAVIS STILL IN THE LEAD IN THE INTERESTING RIVALRY

When the contest for the \$1,000 worth of stock in the Nevada Film company of Tonopah, Inc., was inaugurated, the Bonanza printed its first coupon dated a week in advance. The result was that a large number were held, to be voted on the last day. Now the expiration date will be changed daily.

This is a contest in which not merely a valuable momentary prize is offered, but the winner is to have the distinction of being the first movie queen in this state. It is little wonder that the interest in the contest is growing intense.

No employee of the Bonanza is eligible to enter into the contest, not to clip coupons for candidates. Every body will be given a square deal. Clip the coupons from the papers received in regular delivery, purchase them from the sellers, or apply at this office. Following is the standing of the candidates to date, with Miss Davis still in the lead:

Isabel Davis	53,300
Eleanor Malone	23,000
Edna Sullivan	16,350
Addie Murphy	9,250

WEST END MAINTAINS EVEN TENOR OF WAY

All the slopes in the West End are practically unchanged from last week, either in values or dimensions. Development work is progressing as before and the property is running steadily.

The only new work undertaken is a crosscut in what is known as the litigation. It is known at No. 717 and is being run on an intermediate from the bottom of the winze.

A drift has been started west on the 1200 level of the Halifax on the big ore measure recently encountered there by crosscutting. The ore, which is of excellent grade, shows the full width and height of the drift and there is no means of determining its extent.

Preliminary work is still in progress preceding resumption of work in the winze. There is still some cutting out and timbering to do. A compressor hoist will be installed the latter part of the week, when actual extraction of ore from the winze will be resumed.

MONARCH PITTSBURG HOLES THROUGH TODAY

After upsetting for nearly 200 feet, the Monarch Pittsburg holed through in its raise from the bottom level today. This working opens up a lens of ore that was cut in a cross drive, but was not found in the level beneath. The upraise was run in order to prove the deposit and render its extraction easier. From now on the Monarch will be busied with developments on its lowest level.

GOVERNORS TO MEET IN RENO

The governors of the west are to meet in Reno in 1917 in their regular annual session to discuss various items of interstate interest. The decision to meet in Reno in 1917 was the result of a tip of a coin between Governors Boyle of Nevada and Stewart of Montana. The Montana man won and Butte will be the meeting place for 1916. Twelve western states are eligible for membership to the conference.

ALL INVITED TO BE AT MEETING TOMORROW

NOT ONLY CHRISTMAS TREE BUT A GENERAL PLAN OF CHARITY TO BE LAID

At the meeting tomorrow evening at 8 o'clock in H. E. Epstine's office, not only will plans be prepared for a Christmas tree for the children of Tonopah, but the committee to be appointed will also look after the needs of children of larger growth during the winter that now impends. The people who called this meeting request that the attendance be large and representative. Ladies are particularly invited.

COMMONWEALTH DOES WELL IN OCTOBER

MONTANA LEASERS CONTINUE TO OUTPUT HEAVY TONNAGE OF GOOD ORE

Charles Knox, president of the Montana Tonopah Mining company, arrived this morning from the coast and will leave in a few days for Arizona to inspect the Commonwealth, a subsidiary of the parent company.

Mr. Knox says that the final report of the Commonwealth for the month of October will show that it made a net earning of about \$6,000. The shaft has reached the 1,000-foot level and a crosscut will be run from the foot to the hanging wall. Drifts will then be run on the vein and stopes started.

In the Montana the leasers are doing very well at present. The shipments thus far this week are: Mitchell and associates, 60 tons of \$30 ore; Nick Hill and associates, 140 tons of \$28 ore.

RESCUE-EULA IS ON PAY VALUE STRINGERS

The Rescue-Eula company is drifting east on the 950 level, following stringers that contain pay values. The ore is broken with the waste and it is not being sorted at present, but is dumped where it may be recovered later.

The company is also running what it know as the Eula crosscut on the 950 level, through the Eula claim of the company. It is in matrix trachyte, but has not yet encountered ore.

Among the new lamps for automobiles is one which sheds its light downward directly upon the ground occupied by a front wheel of a car.

The stamp of quality is as obvious on Kelly-Springfield Tires as it is on any other hand-made article of genuine worth. It is as inimitable, as unmistakable as the impress of good breeding on a man or woman. But

Kelly-Springfield

Tires are not made so carefully merely to give them an air of distinction; it is mileage that is built into them so slowly and painstakingly by hand. And judged by the acid test of actual mileage, Kelly-Springfield Tires are as good as they look. They are built up to a standard—not down to a price-list.

NORTH STAR GETS ORE ON THE 950 LEVEL

An excellent development has taken place on the 950 level of the North Star mine. The crosscut there was run under the ledge and an upraise picked it up in nine feet. The level was then continued in the form of a northeast drift and three feet of very good milling ore is being developed in virgin territory.

On the 500 level ore is being stoped in two places. The property at this time is not showing any sensational values but it proving up a territory that has hitherto not developed any ore.

AMUSEMENTS

BUTLER THEATRE

Hailed as "something different" in comedy, George Kleine's latest feature, "The Fixer," starring the funniest of funny comedians, Bickel & Watson, will be the feature at the Butler tonight. "The Fixer" is founded on William M. Goodhue's famous stage farce "Hello Bill" and is said to be as unusual and distinctive in its way as this producer's "Quo Vadis" when it was introduced nearly three years ago. In addition to featuring the funny pair who did so much toward establishing Ziegfeld's early "Follies" shows, the entire production is characterized by a lavishness of setting and minute attention to detail as beautiful as it is unusual in comedy productions. Incidentally, "The Fixer" marks the advent of Bickel & Watson into pictures. The broad humor that made the musician and the tramp in Ziegfeld's early "Follies" so famous, is very much in evidence in "The Fixer." It is a happy story, full of smiles and chuckles, without the slightest suggestion of vulgarity in any of its five delightful parts. The preliminary reel will be a Pathe comedy, which will be run ahead of the feature. Tomorrow, a World feature entitled "Sunday" featuring Reine Davis, in Ethel Barrymore's great stage success, and a Selig Wild Animal picture.

ANNUAL TURKEY SHOOT

The regular annual turkey shoot will be held at the old range back of the substation, beginning Saturday, November 29. More than the usual number of fat, juicy birds will be in evidence. There will be good guns and plenty of ammunition. Those who desire may bring their own guns. Everybody invited, nobody barred.

THANKSGIVING PROCLAMATION

Governor Boyle has issued a proclamation declaring Thursday, Nov. 25, as Thanksgiving Day and in his proclamation he calls upon all to "Give thanks to a kind Providence that has vouchsafed us peace, contentment and prosperity in the fullest measure during the past year."

The anniversary dinner will be given at the Mizpah grill Wednesday afternoon from 4:30 to 8. It is something that should not be overlooked, as it will be a delectable repast and one where the best of people will be met.—Adv. N161.
